

AGN. NO. \_\_\_\_\_

MOTION BY SUPERVISOR DON KNABE

May 16, 2006

Recent news reports have highlighted some disturbing findings regarding the Los Angeles County Coroner's operation. Overcrowding, unsanitary conditions, and bodies infested with maggots were all noted by the press reports. It is imperative that our Coroner operation be operated in a clean, safe manner, and with dignity for the respect of the deceased and their family members.

I, THEREFORE MOVE, That the Board of Supervisors Instruct the Coroner, in conjunction with the Chief Administrative Office, to conduct a full investigation into the issues reported in the press, regarding the current status of the Coroners capital projects, as well as the progress on initiating the process to provide the Coroner with a new building, and report back to the Board of Supervisors within 30 days
